

Daniel 6 part 2

A lion mask

Take the paper plate with a hole in. Using glue stick the construction paper all the way long the outside of the plate to create the lion's mane.

Attached the lolly stick so your children can hold the mask in place.

A fun activity. You could make a fort with blanket and chairs, using the lion mask you make your children could take turns being Daniel and the lion in the den.

Ask them:

- What did Daniel do to get into trouble? (prayed)
- Who was he told to pray to? (King Neb)
- But who did he pray to? (God)

A lion puppet

1. Take the yellow spoon and piece of yellow paper.
2. Cut a circle from the yellow paper
3. Put the wooden spoon on the circle, making a small mark where you need to cut so you can pull the spoon through.
4. Cut where the mark is by folding the circle in half slightly.

5. Cut small slits around the edge of the circle to make the lion's mane.
6. Slid the spoon, the handle end, through the cut and glue, if necessary, to hold in place.
7. Add draw, two eyes, a nose, mouth and whiskers on.
8. Let it dry

Use the puppet to retell the story together. If you had some other lolly sticks you could make the other characters too.

Color the picture of Daniel and the lions

 L - yellow
I - brown

Daniel was saved because of his faith.

God sent an angel to close the mouths of the lions.

Paper plate angel

1. Take a paper plate and cut a triangle out of the plate. Like this. It doesn't have to be exact. I've draw it out for you.
2. Cut an oval/circle out of white paper for the angel's head

3. Attach the piece of plate together like this, using a staplers, glue or cellotape.
4. Decorate the angel with glitter or pens
5. Attach the head in place
6. You could put a hole in the back of the wings so you can hang the angel up as a reminder that God sent an angel to save

Daniel from the lions.
